(According to Standard Humanism)

**Human life will shine in third millennium by the administration of Worldwide Standard Human Society**

By **Standard Humanism & Worldwide Standard Human Society** We will enter in an advanced world!!! In that world by the administration of **WSHS** there would be five departments administering, controlling and purifying all the aspects of human life (as the five top human life facts). Constructing these departments mean to respect all our having and to respect all the desire of 7 billion mankind by the highest organization of world; Therefore in this way all mankind by their cultures, beliefs etc. and by managing them in the hands of the most purest & well-knowledged human beings from all countries will start something amazingly new and hence life becomes refreshed out of the control of power-seeking, backwardness, ignorance, superstition etc. (*The detailed philosophy of Standard Humanism & Worldwide Standard Human Society is discussed in the book*).

**To Start** - First of all people of the world need to understand what the Standard Humanism exactly is! And then by vote for it make this belief be worldwide and visible and hence to attract the eye of international organizations and democratic countries.

By adopting the belief and philosophy of *Standard Humanism*, the world would be ready to its basic changes and reforms! And after constructing the *Worldwide Standard Human Society Organization* will start the steps of global reforms of human life...

.....

**This is the knowledge and world-view of Standard Humanism; by understanding and adopting it our world becomes great as our universe is, and becomes big as we are big...**

***Human life just by a correct compiling of: "reason, heart and soul" and in the way of a perfect joining of material & spiritual life, and with a universal world-view is complete, meaningful and wide in the size of mankind.***

## **And what if there are no perfect reforms in our life?!**

**The rest of Human world and life on this Earth - according to the nature of the Satanic 10 percent's world - would continue; and man to see of what really deserves, will shelter him/herself under the Dream of Success in his/her mind! and not to live in reality with peace, justice and progress...**

**But of course there would be also a slow growth with hope and success...**

**If we really believe that we deserve the bright and brilliant world of third millennium, then we should move towards it by vote for Standard Humanism and Worldwide Standard Human Society Administration instead of UN!**

If we don't realize and accept the *World of Standard Humanism* we will remain in the *World of Satanic 10 Percent* for some more centuries!

**By peace & justice we will be able to pass thru our goal of existence and start our other lives!**

(The Satanic 10 percent never let to live with peace & justice, and that's why our life is poor and incomplete, with a never-ending process of correction...).

**This is a try to save and change human life from primitive to advanced one by the participation of All...**

.....

**The Satanic 10 Percent are very strong now,  
before it is late adopt Standard Humanism to save the world!**
